Control Boxes

Standard 1/2 to 1-1/2 HP Control Boxes

Model	HP	Volt	Amp	Weight Lbs.	Size (In.)
022875	1/2	115	12	3	9 x 3.5 x 5.5
022876	1/2	230	6	3	9 x 3.5 x 5.5
022877	3/4	230	8	3	9 x 3.5 x 5.5
022878	1	230	10.4	3	9 x 3.5 x 5.5
022879	1-1/2	230	8.0/11.5	6.8	9.5 x 5.9 x 7.7

Standard Control Box Components:

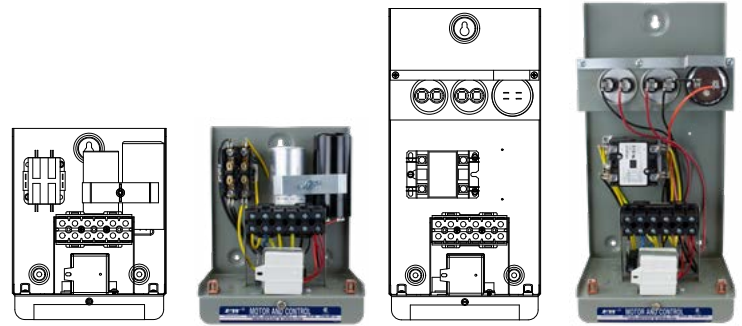

- Fully Interchangeable Cover**
 F&W covers are fully interchangeable with other industry boxes. In some cases this cover fits better than the original cover that is being replaced.
- Capacitor**
 Operating temperature range of -40°F to 149°F. Moisture and oil resistant. Made in the USA.
- Relay**
 This universal voltage relay is made in the USA.
- Enclosure**
 The powder coated enclosure is both durable and long lasting. The finish resists chipping, scratching or fading.
- Nema 3R rating**
 Allows for both indoor and outdoor applications and offers a degree of protection against dirt and debris, water from rain, snow, sleet, etc., and external ice.
- CSA rated**
 Internationally recognized certification of performance.
- Terminal Block**
 Heavy duty, well labeled and accessible. The connectors accept #6 cable. Robust and rigid spades will not bend when the enclosure is closed.
- Multiple Knockouts**
 Knockouts along the side and bottom allow various wire sizes and multiple external devices such as lightning arrestors, alarms, lights, etc.
- Pump Protection**
 Third party protectors can be easily installed to continuously monitor the motor's current and voltage. Symcom lists F&W Control Boxes in their pump protection instruction manuals.

Control Boxes

Deluxe 2 to 5 HP Control Boxes

Model	HP	Volt	Amp	Weight Lbs.	Size (In.)
025242	2	230	13.2	7.1	9.5 x 5.9 x 7.7
025243	3	230	17	7.1	9.5 x 5.9 x 7.7
025244	5	230	27.5	10	15.7 x 5.9 x 7.8

Deluxe Control Box Components:

NEMA 3R Powder Coated Enclosure
Rated for indoor / outdoor applications

Wall or Center Mount
3-screw mounting pattern for wall or post mount applications

Run Capacitor
Heavy duty & Made in the USA

Start Capacitors
Heavy duty & Made in the USA

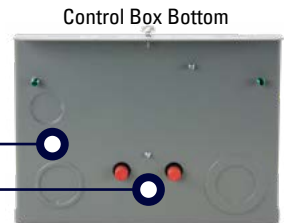

2-Pole Contactor in the 2HP and 3HP
3-Pole Contactor in the 5HP
CSA / CE listed with quick-connect coil terminals

Premium Terminal Block
The terminal block is well labeled and accepts #6 cable. Additional "hand space" provided for ease of wiring

2 Pump Protection Overloads
Saves wear on the pump

Multiple Size Knockouts

Overload Reset Buttons

Relay
Located front & center for easy access & removal. Reliable voltage relay. Made in the USA

Mechanical Ground
Deluxe copper mechanical ground

Control Boxes

Domestically Sourced Components

The capacitors and relays in the deluxe control boxes are made in the USA.

Engineered for Ease of Use

The reset buttons are located in the back in order to allow for the relay to be easily accessible in forefront of the deluxe control boxes.

Deluxe Control Boxes

2 HP to 5 HP

Model	HP	Volt	Amp	KW	Phase	Weight		Size (In.)
						Lbs.	KG
